## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 8, 9, 11, 12, 13, 15, 16, 17, 18, 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Strehlow '520.

Strehlow clearly discloses the claimed limitations in a similar feeding device, the device comprising a(n):

- Conveyor belt (13)
- Material inlet (12)
- Movable plate (19)
- Power actuator or means for urging (47)
- Pair of side skirts (46)

3. Claims 1, 2, 3, 4, 5, 6, 7, 8, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Lovette '261. Lovette clearly discloses the claimed limitations in a similar feeding device, the device comprising a(n):

- Conveyor belt (12)
- Material inlet (26)

Art Unit: 3651

- Movable plate (29)
- Power actuator or means for urging (32)

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 10 rejected under 35 U.S.C. 103(a) as being unpatentable over Strehlow '520 in view of Stock '518.

To have used a rear skirt in Strehlow would have been obvious to one having ordinary skill in the art at the time of the invention in view of Stock who teaches the use of a rear skirt (43) for the purpose of providing for a means to guide material onto the belt (C4/L29-32).

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
